Edugence
Teaching. Learning. Intelligently.

Web Based	Works on any browser and with iPad, iPhone and Android devices.
Dashboards	Dashboards to monitor progress and provide important information in an easy to understand visual format.
Real Time Progress Monitoring	Enables real time progress monitoring and tracking of students in a streamlined formless system. Set goals, time lines, intervention strategies, frequency and group size.
Auto flag students for intervention	Enables automatic flagging of students for intervention based on specific criteria.
Full Support for Tier I, II and III interventions	Manage all tiers of interventions, each having its own intervention strategies. Track historical progress across the different tiers when student transition to a different tier.
Assessment Integration	One place to view and analyze all assessment data.
Student RtI Profile	Access complete intervention profile of students from the time they first came to the district.
Parent Communication	Document all parent contact and utilize reporting feature of parent contact logs by campus, grade, teacher and date range.
Reporting	Range of reports to monitor the RTI process, evaluate student progress, quality of strategies used and outcomes.
Referrals	Integrated referral documentation for Special Ed, 504 or Dyslexia.
Training and Support	Purchased through Region 10 with training and support provided by Region 10 staff!

Region 10 ESC

With a great RtI program, you're able to actively monitor the students and the effectiveness of the supports provided. We love our partnership with Edugence with this because it does precisely that! It's what helps effective data-based decision making and so much more--and what our districts love about it as well!
